Optex AX-100TFR Wireless Beam (30 m)

Battery-operated outdoor photoelectric beam · 30 m

STOCK CODE

07AX100TFR

Battery-powered infrared beam for walls and driveways — no cabling, room for a wireless transmitter inside.

30 m	IP55	3–5 yrs	4 ch
range	weatherproof	battery life*	beam frequencies

WHY CUSTOMERS CHOOSE IT

- **Battery operated** — space for a wireless transmitter in the back box
- **4 beam channels** to stop cross-talk between pairs
- Adjustable interruption time (50–500 ms)
- Low-battery and environment (D.Q.) outputs
- Tamper on cover and back box

BEST FOR

- ✔ Driveways, walls and gates without cabling
- ✔ Pairing with any brand of wireless transmitter
- ✔ Wall, pole or tower mounting

NOT FOR

- ✖ Distances over 30 m — sell the AX-200TFR (60 m)
- ✖ Areas where animals or plants break the beam
- ✖ Wired-only installs (use a mains beam)
