DSC TL405LE Universal Dual-Path Communicator

4G LTE + Ethernet communicator for almost any alarm panel

STOCK CODE

22TL405-LE

Upgrades old landline alarm panels to 4G and internet — plus app arming and SMS alerts.

4G + IP	6	App	6 h
dual path	I/O terminals	ConnectAlarm	opt. battery

WHY CUSTOMERS CHOOSE IT

- **Simulates a landline** — works with most PSTN panels
- **4G LTE + Ethernet**, auto-switching
- ConnectAlarm app: arm, disarm, status
- Alarms to SMS, voice or push notifications
- 6 programmable inputs/outputs for lights/gates

BEST FOR

- ✔ Customers losing their Telkom/landline
- ✔ Upgrading older panels (any brand with a dialler)
- ✔ Adding app arming & push alerts to legacy panels
- ✔ Control-room reporting over 4G and IP

NOT FOR

- ✖ Panels with no telephone dialler output
- ✖ Sites with no cellular signal and no internet
