Texecom Premier Elite Detector

Grade 2 interchangeable detector range (IR / TD / QD / DT) · 15 m

STOCK CODE

41AFE-0001

Commercial-grade detectors with swappable electronics — upgrade technology without changing the housing.

⚠ Datasheet covers the Premier Elite range (IR, TD, QD, DT). Confirm which model this stock code is.

15 m	Grade 2	Swap	DT
range	EN50131	PCB modules	option

WHY CUSTOMERS CHOOSE IT

- **Interchangeable PCB** — swap IR, TD, QD or DT modules
- **ICC™** ignores RF, lightning, phones (IR)
- Sealed optics, digital temperature compensation
- DT: X-band microwave + PIR, fluorescent light protection

BEST FOR

- ✔ Offices, shops and commercial sites
- ✔ Upgrading detection without new housings
- ✔ Difficult areas (DT dual technology)

NOT FOR

- ✖ Grade 3 sites (see Premier Elite AM)
- ✖ Outdoor use

KEY SPECS

Range	**15 m volumetric**
Approvals	**EN 50131-2-2 / 2-4 Grade 2**
Technologies	**IR, twin dual (TD), quad (QD), dual-tech (DT)**

FAMILY — PICK THE RIGHT ONE

Elite IR	**High-immunity PIR**
Elite TD	**Twin dual element**
Elite QD	**Genuine quad**
Elite DT	**PIR + microwave**

COUNTER QUICK ANSWERS

Which for a warehouse? DT (dual technology) for tough environments.

Grade 3? No — see Premier Elite AM series.

Upgrade later? Yes — swap the PCB module.
